01 Security & Entry

FROM VIDEO TO BUSINESS INTELLIGENCE TO BUSINESS GOALS

ASI360 ONE SOURCE UNLIMITED SOLUTIONS | LUMINYS

ASI360 Consulting | Luminys partner

Entry Overview Camera
A wide view of the entrance captures overall activity.

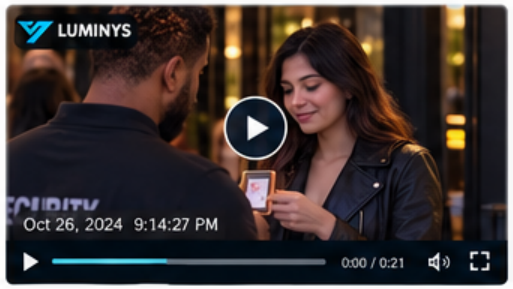

Interaction View
A closer view captures the verification interaction.

1 CAPTURE
Entry activity + supported device events

- Video cameras
- Door access events (if available)
- POS activity (if available)
- Staff comms (if available)

2 AI REVIEW
Timestamped clip + missing process record

Missing process record
No corresponding entry verification record found (e.g., log or checklist).

3 HUMAN RESPONSE
Review evidence + approved talk-down

- Staff reviews the clip and context
- Confirms compliant, professional interaction
- Approves talk-down and clears entry
- Adds a brief note to close the event

4 BUSINESS GOAL
Faster verified response

Safer, more welcoming entrance experience
Supports staff with clear evidence and consistent processes.

Faster issue resolution
From detection to decision, with video and context.

Operational visibility
Identify trends, reduce risk, and improve guest experience.

MORNING REPORT (EXAMPLE)
A quick view of overnight entry activity for management review.

Event count: **Unknown**

Response time: **Unknown**

Evidence: **Required**

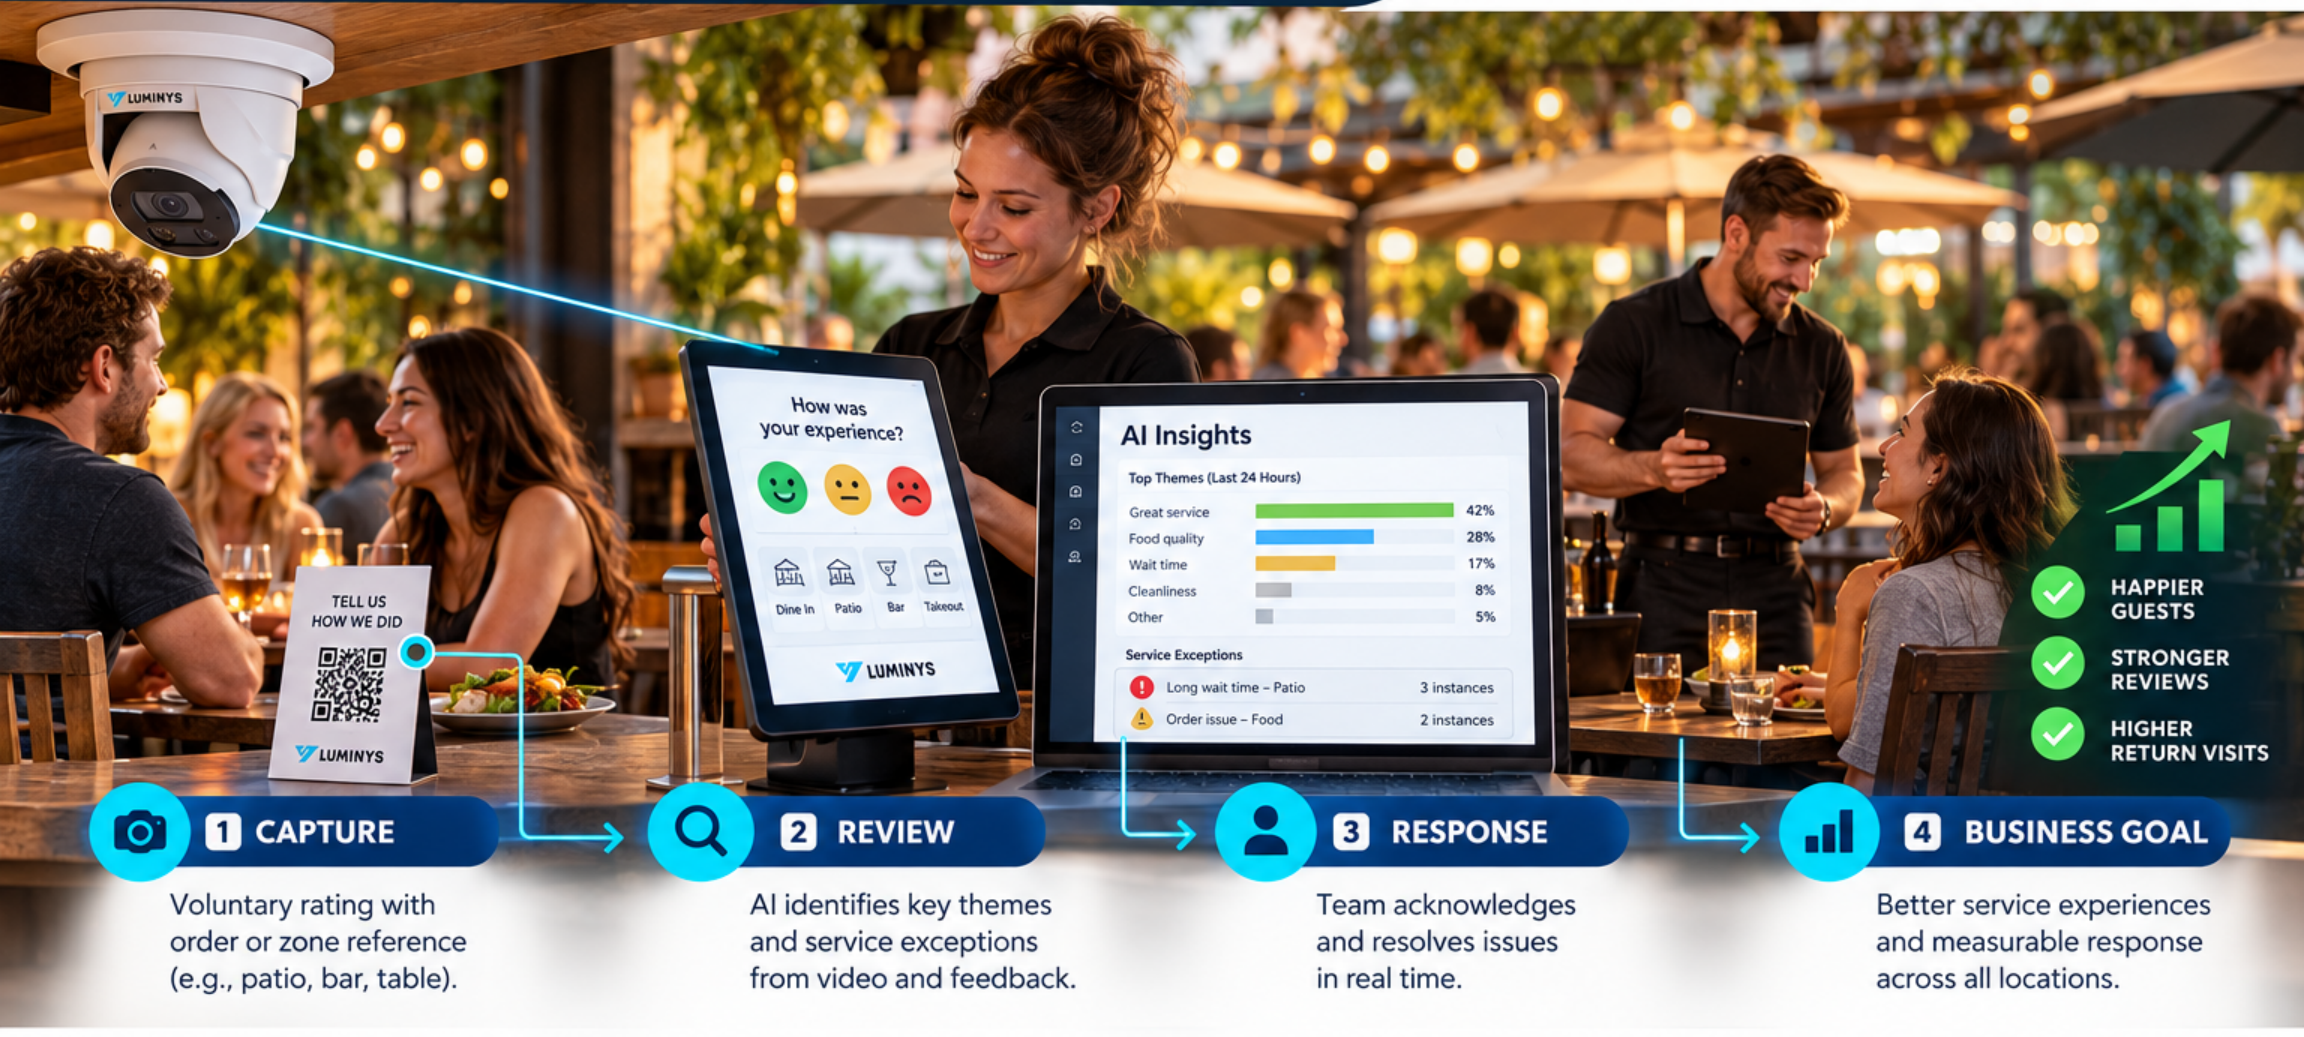

Actual values will be available once systems and processes are implemented and validated.

02 Customer Experience

FROM VIDEO TO BUSINESS INTELLIGENCE TO BUSINESS GOALS

ASI360 Consulting | Luminys partner

1 CAPTURE

Voluntary rating with order or zone reference (e.g., patio, bar, table).

2 REVIEW

AI identifies key themes and service exceptions from video and feedback.

3 RESPONSE

Team acknowledges and resolves issues in real time.

4 BUSINESS GOAL

Better service experiences and measurable response across all locations.

THE MORNING REPORT

A clear view of yesterday. A confident plan for today.

- Key guest feedback trends
- Service exceptions and resolution status
- Top zones and opportunities
- Actions for today's team

TURN INSIGHTS INTO ACTION

03 Kitchen & Food Quality

FROM VIDEO TO BUSINESS INTELLIGENCE TO BUSINESS GOALS

LUMINYS
ASI360 Consulting | Luminys partner

Color and thermal surface images do not prove internal food temperature.

01 CAPTURE

BATCH TIMER + ORDER ID + MEASURED TEMPERATURE

Luminys cameras capture the fryer station, digital basket timer (e.g., Order #1847), and the cook's measured temperature (e.g., 165.2 °F) — linking it all to the same moment in time.

02 AI REVIEW

PROCESS TIMELINE + QUALITY EXCEPTION

Video and sensor data are synthesized into a timeline, flagging potential exceptions such as temperature below recipe target or other process deviations for review.

Order #1847

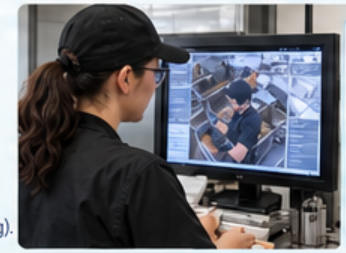

Basket lowered	10:21:58
Cook time (in progress)	10:22:00
Temperature below target	10:23:52
Measured temperature 165.2°F	10:24:17

03 HUMAN RESPONSE

VERIFY APPROVED RECIPE AND MEASUREMENTS

Staff review the flagged event with the video evidence, verify the approved recipe and measured temperature, and document the outcome (e.g., confirmed compliant or requires retraining).

REVIEW CHECKLIST

- ☐ Approved recipe
- ☐ Measured temperature meets target
- ☑ Process followed
- ☐ Document outcome

04 BUSINESS GOAL

CONSISTENT PROCESS + TRACEABLE EVIDENCE

More consistent food quality, reduced risk, and a complete, traceable record of process, temperature and staff response to support training, audits and continuous improvement.

Consistent Quality · Reduced Risk · Traceable Evidence · Continuous Improvement

THE MORNING REPORT

A concise, site-specific summary to start the day — highlighting kitchen and food quality insights from the previous day.

12 Fryer Batches Reviewed
Video + timer + temperature linked to each order

11 Met Process and Temperature
Aligned with approved recipe

1 Exception Flagged
Reviewed and documented (e.g., lower temperature)

Follow-up Completed
Verified process and reinforced training

04 Bar & Expo Operations

FROM VIDEO TO BUSINESS INTELLIGENCE TO BUSINESS GOALS

LUMINYS
ASI360 Consulting | Luminys partner

1 CAPTURE

- Order accepted at bar or kitchen
- Item prepared and ready
- Pickup and delivery activity observed

2 AI REVIEW

- Highlight potential delays by station
- Identify missing handoffs
- Surface patterns and opportunities

3 HUMAN RESPONSE

- Staff confirm order and destination
- Address delays or misroutes
- Keep service on track in real time

4 BUSINESS GOAL

- Faster service
- Greater order accuracy
- Smoother bar and expo operations
- Better guest experience

THE MORNING REPORT

TURN ACTIVITY INTO INSIGHTS

A clear, visual summary to review performance, identify opportunities and support continuous improvement.

30 deliveries
FICTIONAL EXAMPLE

Average prep time:
Unknown

EXAMPLE INSIGHTS

- See peak activity periods
- Spot potential delays by station
- Identify missing handoffs
- Track overall flow and consistency

05 Inventory & Facilities

FROM VIDEO TO BUSINESS INTELLIGENCE TO BUSINESS GOALS

LUMINYS
ASI360 Consulting | Luminys partner

1 CAPTURE

- Stock records (barcode scan)
- Door/sensor events
- Device health (cameras, sensors, network)

2 AI REVIEW

- Detect variance and anomalies
- Highlight downtime or faults
- Identify missing data or gaps in records

3 HUMAN RESPONSE

- Inspect physical inventory
- Reconcile system records
- Repair or service devices
- Document resolution

4 BUSINESS GOAL

- Reliable infrastructure
- Accountable inventory
- Reduced operational risk
- Actionable data for better decisions

MORNING REPORT

A SINGLE VIEW TO START THE DAY

- Inventory status and variances
- Door events and temperature trends
- Device health and connectivity
- Items needing attention
- Resolve, update, move forward

ILLUSTRATIVE CONCEPT • NOT LIVE FINDINGS • CAPABILITIES REQUIRE VERIFICATION • PENDING REVIEW

06 Executive Business Intelligence

FROM VIDEO TO BUSINESS INTELLIGENCE TO BUSINESS GOALS

CAPTURE
Approved source data from across operations

- IP video and access
- POS and transaction logs
- Operational systems
- Staff reports and events

AI REVIEW
Combine evidence and confidence

- Correlate video, transactions and access events
- Highlight anomalies and patterns
- Provide context and confidence

HUMAN DECISION
Approve priorities and next steps

- Review evidence and context
- Validate and assign actions
- Coordinate with department leads
- Close the loop

BUSINESS GOAL
Measure speed efficiency and accuracy

- Faster response and resolution
- More efficient operations
- Higher data accuracy
- Better guest and team experiences

MORNING REPORT CONCEPT
A daily executive brief to align teams, focus on what matters, and drive results.

1. ANALOG
Basic recording

2. DIGITAL RECORDING
Local storage

3. IP VIDEO
Networked and accessible

4. ACTIVE DETERRENCE
Real-time response

5. BUSINESS INTELLIGENCE
Actionable insights
